

## External Collaborations

Dr. **Vassilios C. MOUSSAS** collaborated with [Paragon S.A. and other European partners](#), in several **FP7 ICT Projects**, i.e.:

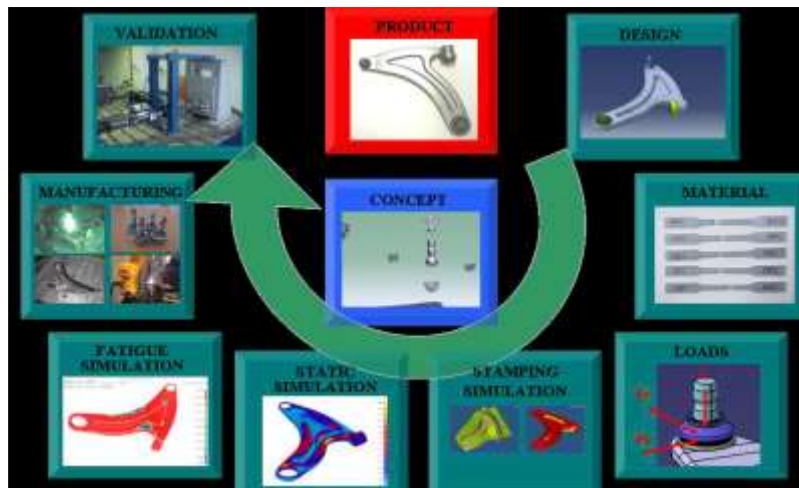

- **ADOSE**: Reliable Application specific Detection of road users with vehicle On-board Sensors (Coordinated by Centro Ricerche FIAT SCPA, budget € 10,223,008)

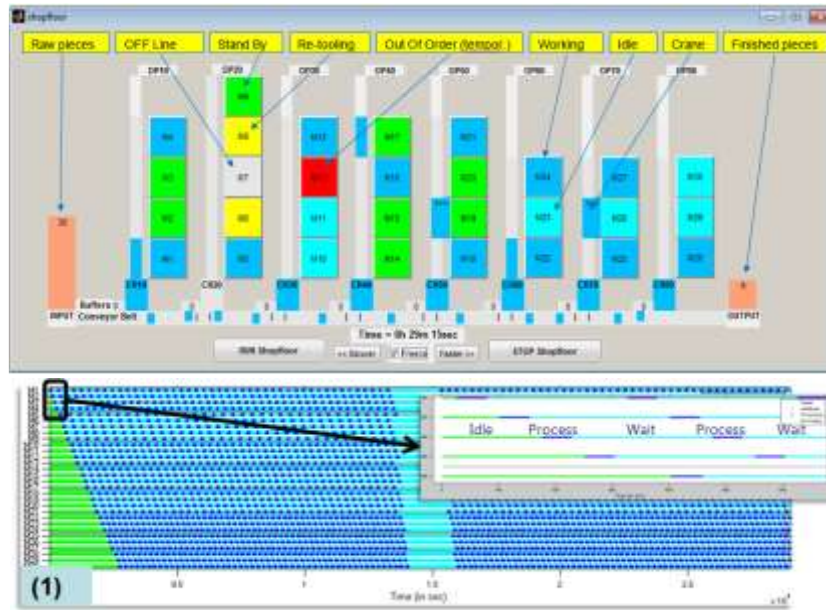

- **CRESCENDO**: Collaborative & Robust Engineering using Simulation capability Enabling Next Design Optimisation, (Coordinated by AIRBUS Operations Limited, budget € 54,792,972)

- **iPROD**: Integrated management of product heterogeneous data, (Coordinated by SIEMENS Industry Software NV, budget € 4,664,858)

- **FOFDATION:** The Foundation for the Smart Factory of the Future (Coordinated by AIRBUS operations SAS, budget € 10,359,003)

- **WENEMOR:** Wind tunnel tests for the Evaluation of the installation effects of Noise Emissions of an Open Rotor advanced regional aircraft, CLEAN SKY Project (Coordinated by TRINITY COLLEGE DUBLIN Ireland, budget € 1,999,332)
